Drawings

1. The replacement drawing sheet was received on 5 December 2005. These drawings are acceptable.

Claim Rejections - 35 USC § 112

2. The claim rejections under 35 USC 112 are withdrawn due to Applicant's amendment filed 5 December 2005.

Allowable Subject Matter

3. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a cutting tool for simultaneously facing and grooving a target surface by moving in a forward direction defined parallel to the target surface as claimed in independent claim 1, specifically wherein the combination of limitations includes the bottom surfaces of the facing part and grooving part parallel to each other.

The closest prior art is US Pat. No. 5,975,812 (Friedman) as is discussed in detail in the previous office action.

Friedman teaches the grooving edge 21A with an angled bottom surface that is not parallel with the facing edge's 25A and 23A bottom surface (see figure 3 and figure 1).

Therefore Friedman does not anticipate the claimed invention of independent claim 1.

Furthermore, there is no prior art, either alone or in combination, that renders obvious the claimed combination of limitations of the invention of claim 1, and no motivation found to modify the prior art to obtain the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
